

## Quantess Summer Seminars

What a summer, and thank you Mediterranean weather god!

Looking back to this summer we are so pleased to have you joining us for two very special seminar series that featured topics including min volatility, machine learning and the design of blockchain protocol (MimbleWimble!). What is always valuable for us is to have a platform where there is an opportunity to learn and think critically from these discussions about the latest developments in some of the most dynamic fields of finance and data science today. Moreover, the chance to meet and talk to like-minded quantess from all different fields of profession is incredibly inspiring.

Thank you to all our speakers, our generous hosts, and our super engaging and diverse audience! You can revisit any of our seminar topics through the [newsletter archives](#).

## Speaker Opportunities & Upcoming Events

### [Get Involved](#)

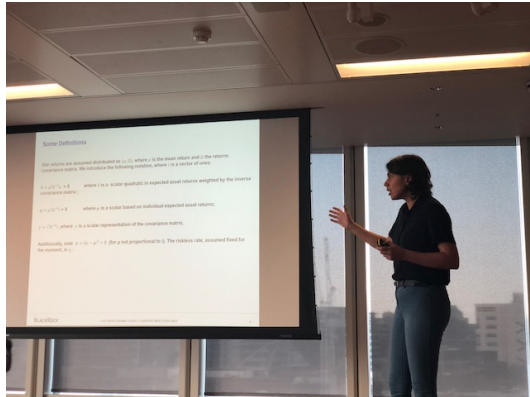

Interested in giving talks at our seminars? We are now open for topic submissions for our Christmas edition. Let us know by [email](#) or message us on [facebook](#)! We provide opportunities for speakers to showcase their work, either in our

### [Women in Data UK 2018](#)

We are partnering with Women in Data to invite all Quantess London members to Women in Data 2018 conference on 29th Nov Central Hall, Westminster, where more than 1000 data professionals gather to hear data and analytics ground-breakers share their experiences. If you are

seminars or by linking them to other quant events.

interested in this event, [registration](#) is open to all.
